

BC Regional Event:

Disciple Making

Loving Our West Coast Neighbours

*A day of facilitated conversations around
discipleship for mission and formation.*

How are we being formed in Christlikeness in this season, in this context?

How is our understanding of how God is at work in our neighbourhoods changing?

How is God touching us, deepening us, changing us, healing us, equipping us to be His Presence?

Come with your Leadership Team and join other Vision Ministries leaders as we engage in honest, thoughtful and highly contextual dialogue about the unique place that we inhabit on the West Coast:

What God can teach us about hospitality through coffee houses, potlucks and microbreweries?

How is God using First Nations theology to correct our notions of discipleship?

How are the “Nones” and “Dones” challenging us to pray differently?

Why is it important that expressions of Christian worship be both global and local?

In what ways can accepting diversity in our congregations form us more deeply into the people of God?
